

COMMENCEMENT

Fall 2020

LETTER FROM THE PRESIDENT

Congratulations on your graduation from the University of Iowa!

Today is an exciting and proud day in the life of the university—when our students, their friends and family, and their teachers and mentors celebrate the completion of a University of Iowa degree. One of the greatest badges of pride you will wear from this day forward is your degree from the University of Iowa. The contributions you will make to the world will be rooted in the unique character of an Iowa education, so when you say you are an Iowa graduate, that carries a very special meaning.

Your graduation is occurring during an extraordinary time in history. The pandemic has changed the way we do everything for the time being, including how we are celebrating your commencement. Even as we recognize your college graduation in a different way, our pride in your accomplishments remains as strong and bright as ever. We stand together as Hawkeyes today with dignity and joy as always, and I believe with even greater strength and purpose. On this day we must honor you at a distance, but our virtual handshake is just as warm and hearty as if we had gathered on campus. And when our campus opens again, we hope you will visit us so we can give you that handshake you so richly deserve in person.

No matter where you work and live in the years ahead, we encourage you to stay connected and involved through [Forlowa.org](https://forlowa.org). There you will find information and inspiration to keep you connected to the UI as we continue to combat the current crisis, and after it has passed, you will learn how to reconnect with fellow Hawkeyes at home and elsewhere. You will find locations of Iowa Clubs across the country (and world!) that provide good company for game watches and service activities. You can also access alumni resources and networking opportunities, stay up to date on university happenings by subscribing to the *Iowa Magazine* and newsletter, and join alumni affinity groups to stay in touch with alumni who share some of your most important Iowa experiences.

When we are once again able, we will come visit you as well! Members of the university community travel the country every year to bring the campus to your community, to share updates about the exciting advances and innovations happening at the university, and to give Hawkeyes a chance to gather with each other and celebrate their Iowa pride.

As you transition to the next phase of your life, we will continue to think of you as part of our university family and hope to always be an important part of yours. And of course, we hope you will come back to visit us when you can.

Again, congratulations on all your achievements. And remember, Once a Hawkeye,

Always a Hawkeye!

A handwritten signature in black ink, reading "J. Bruce Harreld". The signature is written in a cursive, flowing style.

J. Bruce Harreld
President

For Hawkeyes, a promising future

With the coronavirus pandemic upending traditional educational practices across campus and the country—even commencement ceremonies—2020 has proven to be a challenging year.

Since March, students have made sacrifices to maintain health and safety. Instruction for a majority of courses moved online, face masks and hand sanitizer became the norm, internships and study abroad programs were largely suspended, stages remained dark. In fact, most events were held virtually or removed from the calendar. Even fall's Homecoming parade was dubbed the "Stay-at-Homecoming" parade.

Through it all, however, Hawkeyes persisted. They continued to excel and stretch. To engage and choose and serve.

Take, for example, the record 23 students and alumni who won Fulbright scholarships to conduct research, teach English, or undertake creative projects abroad. Or the students who, concerned about our impact on the planet, set high bars for sustainability goals and led Iowa to become the first certified fair-trade university in the Big Ten.

With social distancing requirements, students sought to make connections in new and innovative ways and showed us how to present important events virtually—whether it be a University Lecture Committee speaker or an art performance or a voter engagement summit. They stepped forward to donate much-needed blood. Iowa student athletes and coaches spent a day in Cedar Rapids to help our hard-hit neighbors to the north clear storm debris.

Coming together for the greater good—that's the Hawkeye Way. As 2020 comes to a close, we can count on one thing: With this cohort of new graduates comes a new dawn. As thousands of Hawkeyes enter the next stage of their lives, they leave campus full of potential and promise.

ABOUT THE UNIVERSITY OF IOWA

The University of Iowa is one of the nation's premier public research universities, with **31,730 students** from **98 countries** and **all 50 states**. Founded in 1847, it is Iowa's oldest institution of higher education and is located alongside the picturesque Iowa River in Iowa City.

A member of the Association of American Universities since 1909 and the Big Ten Conference since 1899, Iowa is home to one of the largest and most acclaimed medical centers in the country, as well as the famous Iowa Writers' Workshop.

In pursuing its missions of teaching, research, and service, the university seeks to advance scholarly and creative endeavor through leading-edge research and artistic production; to use this research and creativity to enhance undergraduate, graduate, and professional education, health care, and other services provided to the people of Iowa, the nation, and the world; and to educate students for success and personal fulfillment in a diverse world.

The University of Iowa carries out its academic mission primarily through its 11 colleges, which offer undergraduate and graduate education, professional education, and education and training in the health sciences.

A Proud Tradition of Progress

Hawkeyes have always challenged barriers that prevented driven student from pursuing an education. This heritage of continuous progress shapes our community today as we endeavor to create a welcoming home for every perspective.

First university in the state of Iowa

First public university to admit men and women on an equal basis

First to officially recognize an LGBT student organization

First to broadcast educational television

First to offer the Master of Fine Arts degree

First college of law west of the Mississippi

First college of education in the country

GRADUATION HONORS

High scholastic achievement is recognized at graduation in two ways: graduation with distinction (based on grades only) and graduation with honors in a particular field (based upon both grades and the completion of special work as outlined by the college and the major department).

Graduation with Distinction. The Office of the Registrar certifies to the deans of the colleges the names of students eligible to graduate with distinction. To be eligible for consideration, the graduate must complete the final 60 semester hours in residence in the graduating college, at least 45 semester hours of which must have been completed prior to the final semester of registration. The grade-point average (GPA) upon which distinction is determined includes all work undertaken prior to the opening of the final session.

Graduates with distinction in the Colleges of Liberal Arts and Sciences, Engineering, and Business rank as follows:

With Highest Distinction	Highest 2%
With High Distinction	Next Highest 3%
With Distinction	Next Highest 5%

Graduates with distinction in University College must complete a total of 45 semester hours in residence; 30 must be completed prior to final registration. Recognition is determined as follows:

With Highest Distinction	3.90–4.00 GPA
With High Distinction	3.80–3.89 GPA
With Distinction	3.75–3.79 GPA

In the undergraduate programs in the College of Medicine:

With Highest Distinction	3.85 GPA or above
With High Distinction	3.75–3.84 GPA
With Distinction	3.65–3.74 GPA

In the Colleges of Nursing and Education:

With Highest Distinction	3.90 GPA or above
With High Distinction	3.80–3.89 GPA
With Distinction	3.75–3.79 GPA

In the College of Pharmacy:

With Highest Distinction	4.0 GPA or above
With High Distinction	3.75–3.99 GPA
With Distinction	3.50–3.74 GPA

Distinction is designated by gold stars worn on the left sleeve. Three stars indicate graduation *with highest distinction*; two, *with high distinction*; and one, *with distinction*.

Graduation with Honors Degrees. Students may graduate with both departmental honors and university honors. Departmental honors recognizes excellence in a student's major area(s) of study, whereas university honors recognizes a breadth of academic accomplishment. Departmental honors requires additional work by the student, commonly a scholarly project or creative piece completed under the mentorship of a single faculty member, that goes beyond the regular requirements for the major. University honors requires the completion of a flexible curriculum of honors coursework and experiences—such as research, study abroad, or internships—woven into the student's undergraduate education. Liberal arts and sciences and education candidates who are graduating with departmental honors wear white cordons draped over the shoulders, and university honors is recognized by a medal on a black-and-gold lanyard worn around the necks.

ACADEMIC COSTUME

The academic costume code recognizes three styles of gowns: bachelor's, master's, and doctoral. In May 2000, the Graduate College commemorated its centennial year with a new doctoral gown; the main differences can be seen in the trimming, cut, and shape of the sleeves. Hoods also denote degrees and may vary; the more elaborate adornments designate higher levels of degree attainment. The shell of the hood matches the black material of the gown, and the lining color represents the institution granting the degree. University of Iowa hoods are lined in old gold. The color of the velvet hood border indicates the field of study to which the degree pertains. At the University of Iowa, only doctoral degree candidates wear hoods. The velvet trim on hoods corresponds to colors established in the intercollegiate code.

The Oxford cap is proper for all degrees and can be worn both indoors and out with academic costume. The tassel, worn over the left eye, symbolizes the degree to be conferred on the wearer; tassels conform to the code colors for hood trimming.

Institutional practice may vary from the established code. University of Iowa candidates for degree display tassels corresponding to the college from which their degree will be granted.

Business: sapphire blue
Dentistry: lilac
Education: black and gold

Engineering: orange
Graduate: black
Law: purple

Liberal Arts and Sciences: white
Medicine: green
Nursing: apricot

Pharmacy: olive green
University College: white

PRESIDENTIAL EMBLEM

The jeweled gold medallion worn by the University of Iowa president during commencement ceremonies and other formal academic events on campus was designed as an emblem of the university's presidency by Karen Cantine when she was a graduate student in the UI School of Art and Art History.

Featuring an abstract UI motif in the university's colors—old gold and black—the emblem was first used in the investiture of Howard R. Bowen as the university's 14th president during inauguration ceremonies on Dec. 5, 1964.

Four-and-one-half inches in diameter, the medallion is worn on a gold chain also designed and made by Cantine. Fashioning the emblem from a sheet of 14-carat yellow gold, Cantine outlined in black enamel eight UI motifs in raised gold letters in areas radiating from a large topaz in the center.

The central jewel is nearly an inch in diameter. A slightly smaller topaz is set in the link that attaches the emblem to the chain on which it is worn, and eight small topazes are set around the edge of the emblem, one at the end of each "spoke."

Designing and making the presidential emblem was part of Cantine's work for a Master of Arts degree in metalwork and jewelry design.

HONORARY DEGREES

The University of Iowa, with approval of the Board of Regents, State of Iowa, confers honorary degrees to individuals who have demonstrated extraordinary achievements in such areas as research, scholarship, education, artistic creation, social activism, human rights, humanitarian outreach, or as recognized by the faculty as being consistent with the values of higher education.

Honorary degrees may be conferred at commencement ceremonies in the appropriate college or at University convocations. Honorary degrees are typically conferred only when the honoree is present. On rare occasions, an honorary degree may be conferred in absentia.

The first honorary degree was awarded in 1962; no honorary degrees were conferred from June 1, 1981 to 2007. Over 30 honorary degrees have been awarded, and three have been approved, but have not yet been conferred.

For more information on honorary degrees, or to see a list of award recipients, please visit uiowa.edu/honorarydegrees.

DR. ELLEN R. STOFAN

Honorary Doctor of Science

Dr. Ellen R. Stofan joined the Smithsonian Institution's National Air and Space Museum as the John and Adrienne Mars Director in April 2018. Previously, she was chief scientist at NASA (2013–2016), serving as the principal advisor to former Administrator Charles Bolden on NASA's strategic planning and programs. She helped guide the development of a long-range plan to get humans to Mars, worked on strategies for NASA to support commercial activity in low Earth orbit, and supported NASA's overall science programs in heliophysics, Earth science, planetary science, and astrophysics. She has addressed the World Economic Forum's Council on the Future of Space Technologies and continues to serve as a member of the council.

Dr. Stofan earned her bachelor's degree in geology at the College of William & Mary in Williamsburg, Virginia, and her master's and doctoral degrees at Brown University, both in geological sciences. While finishing her doctoral degree, Stofan joined the Jet Propulsion Lab (JPL) as a post-doctoral fellow. Her research focuses on the geology of Venus, Mars, Saturn's moon Titan, and Earth.

Dr. Stofan has published extensively and received many awards and honors, including the Presidential Early Career Award for Scientists and Engineers and the NASA Distinguished Service Medal, and was named one of "CNN's Extraordinary People of 2014." She is co-author of the books *Planetology: Unlocking the Secrets of the Solar System* and *Next Earth: What Our World Can Teach Us About Other Planets*, both published by National Geographic.

Dr. Stofan has worked closely with the UI Department of Physics and Astronomy, as an associate member of the Cassini Mission to Saturn Radar Team and a coinvestigator on the Mars Express Mission's MARSIS sounder. She was invited by the Lecture Committee to speak on campus in spring 2018, and through that lecture and other generous interactions with students stoked the enthusiasm of many aspiring young scientists. As a frequent public speaker and in her new role at the National Air and Space Museum, she is passionate about inspiring the next generation of scientists—especially women and under-represented groups interested in space and astronomy.

In addition to receiving her honorary Doctor of Science degree from the University of Iowa this fall, Dr. Stofan is an honorary professor at University College London.

Dr. Ellen Stofan, the John and Adrienne Mars Director of the National Air and Space Museum, received an honorary Doctor of Science degree from the University of Iowa in Fall 2020. She is seen in front of the Space Shuttle Discovery, located in the James McDonnell Space Hangar at the Steven F Udvar-Hazy Center in Chantilly, VA. October 14, 2020. CANDIDATES FOR DEGREE

Fall 2020

GRADUATE COLLEGE

Founded in 1900, the University of Iowa Graduate College manages the enrollment and degree progress of nearly 5,000 students from over 100 graduate programs in 10 different colleges spanning the arts and humanities, biological sciences, health sciences, engineering, education, physical sciences, social sciences, and business.

The mission of the Graduate College is to foster an intellectual environment conducive to exemplary research, scholarship, and creativity among graduate students, postdoctoral scholars, and faculty. The college makes every effort to ensure that the graduate programs offered by the university are of a high quality and stimulate the creation of new knowledge and information, and that these efforts simultaneously benefit both graduate and undergraduate student learning. The Graduate College serves as an advocate for graduate education, allocates resources that support graduate students and programs, manages policies and procedures to establish and assess graduate programs, and fosters interdisciplinary programs.

HENRY B. TIPPIE COLLEGE OF BUSINESS UNDERGRADUATE PROGRAMS

The University of Iowa first offered courses in economics and business in 1858. The School of Commerce was formally established in 1914 and was later renamed the College of Business Administration in 1921. The college received national accreditation in 1923 and has held that accreditation ever since.

The college was renamed the Henry B. Tippie College of Business in 1999 in recognition of a significant gift from 1949 alumnus Henry B. Tippie. Today, there are nearly 5,000 students in the college working toward Bachelor of Business Administration (BBA), Master of Accountancy (MAc), Master of Business Administration (MBA), Master of Science (MS), and doctoral (PhD) degrees.

With more than 50,000 living alumni around the globe, the Tippie College of Business continues its long tradition of having an impact on the world.

HENRY B. TIPPIE COLLEGE OF BUSINESS GRADUATE MANAGEMENT PROGRAMS

The Tippie College of Business MBA Programs develop ethical global leaders who will thrive in a world that demands resourceful approaches to business practice. To achieve this, the strategic priorities of problem-solving, communication, and diversity are paramount. This is evident in our commitment to garnering an exceptional research reputation, propensity for innovative teaching, and focus on network engagement along with our advocacy for diverse, equitable, and inclusive initiatives. These priorities are pursued through a combination of programs across the state of Iowa and around the world, including Hong Kong and Italy. The Executive MBA program operates in Iowa City and Des Moines while the Professional MBA program offers in-person courses in Cedar Rapids, Des Moines, and the Quad Cities along with hybrid and online opportunities.

Iowa MBA Programs have a particularly important impact on economic development in the state of Iowa as students typically represent over 400 corporations, educational institutions, and not-for-profit organizations across the state. National reach continues to expand with growth of the Online MBA program, which is trending over sixty percent non-Iowa participants. International aspects including unique overseas programs, a robust international student population, and engaging international study trips serve to provide a true global perspective for our graduates. These program features enhance personal as well as professional understanding of our complex and dynamic business environment.

COLLEGE OF EDUCATION

The University of Iowa College of Education is the highest ranked of its peers in Iowa and recognized nationally—in the top 2% for secondary education and the top 6% for elementary education. The college's roots reach all the way to the UI's founding: Teacher education was the only program specifically called for when legislators created the State University of Iowa in 1847, just 59 days after Iowa became a state.

The college awards nine BA majors – one in Elementary Education and seven for secondary teaching (Art Education, English Education, Foreign Language Education, Mathematics Education, Music Education, Science Education, and Social Studies Education), which complement majors in liberal arts and sciences, and one non-licensure major, Education Studies and Human Relations. Currently the college enrolls approximately 550 undergraduate students.

The college's graduate programs are also highly acclaimed, ranking in the nation's top 20. More than 550 graduate students are enrolled, and graduates serve as teachers, counselors, psychologists, principals, superintendents, testing specialists, and higher education leaders both in Iowa and across the nation.

COLLEGE OF ENGINEERING

The College of Engineering at the University of Iowa is recognized for its groundbreaking research; hands-on, personalized learning; and education that connects our students to a wide range of disciplines and resources. We position our students for success while on campus and in their careers beyond the university by providing them with the tools and experiences that will make them successful engineers who will have a global impact. Becoming an engineer at Iowa—an engineer and something more—is rooted in our commitment to combining engineering education and research with other areas of academic excellence across the university, including international studies, writing and communications, health sciences, business, law, arts, and humanities. This approach has helped establish the University of Iowa as the place to educate and train talented engineers who can address grand global challenges in a rapidly changing world.

There are more than 16,000 Iowa engineering alumni living and working throughout the world—4,800 in the state of Iowa—many with corporate and personal ties to the college through recruitment, mentoring, guest seminars, faculty consulting, sponsored research, financial giving, and other interactions.

COLLEGE OF LAW

The University of Iowa College of Law prepares its students to become tomorrow's leaders in law, government, and industry. Our leading law library, global curriculum, and strong writing tradition underpin the world-class legal education we provide. Through our live-client clinics and a wide range of externship placements, our law students hone their skills and embrace the highest ideals of the legal profession by providing legal services to the indigent and working on law reform for the improvement of the general welfare. Iowa-educated lawyers begin making a difference very early in their careers.

Our alumni practice law from Wall Street to Silicon Valley, from London to Beijing, and in almost all of Iowa's 99 counties. As corporate counsel, they advise business leaders, and as chief executive officers, they run businesses. They are state and federal judges, appointed officials, elected leaders, law professors, and university presidents. They can be found in classrooms, courtrooms, and boardrooms in every state in the nation, and around the world.

The College of Law ranks among the best law schools in the United States, public or private. But as a public law school, we take our missions of access, affordability, and service seriously. To fulfill our promise to the public we serve, we draw upon the breadth and depth of the law school's assembled expertise to create new knowledge and to address the weightiest problems confronting modern society. We are grateful to the state of Iowa and the many individuals whose support contributes to our successes.

COLLEGE OF LIBERAL ARTS AND SCIENCES

The College of Liberal Arts and Sciences invites students to explore the entire range of human learning, from the visual and performing arts to the humanities, social sciences, and natural and mathematical sciences.

Our students work with faculty members who are committed to integrating their research into their teaching and to helping students develop their own capacity to communicate persuasively, think creatively, adapt quickly, be open to emerging ideas and technologies, and work with colleagues with diverse expertise and backgrounds to solve problems and develop new frontiers.

In 1900–01, the college had about 600 students in its four “courses of study,” and a faculty consisting of only 28 professors and assistant professors. Today, about 17,000 undergraduates enroll in our college each year. About 80% of all UI undergraduates begin their studies in the College of Liberal Arts and Sciences, and we award about 70% of the university’s undergraduate degrees.

We are grateful to the many alumni who continue to support the college with their time and expertise and who have helped to provide funding to create opportunities and scholarships for our students. Most important, we are proud of our hardworking graduates who carry their University of Iowa College of Liberal Arts and Sciences education into their professional and civic lives.

ROY J. AND LUCILLE A. CARVER COLLEGE OF MEDICINE

The University of Iowa Roy J. and Lucille A. Carver College of Medicine is an integral part of University of Iowa Health Care, the state's only comprehensive academic medical center, which also includes UI Hospitals & Clinics and UI Physicians, the state's largest multispecialty group practice. Educated in an atmosphere of scholarship, humanism, and respect, students acquire the knowledge and skills necessary to embrace advances in medical science and technology and serve as advocates for their patients, their profession, and their communities

The Carver College of Medicine is the only college in the state of Iowa that awards a Doctor of Medicine degree. It also offers a curriculum leading to degrees in Doctor of Physical Therapy, Master of Clinical Nutrition, Master of Clinical Anatomy, Master in Medical Education, Master of Physician Assistant Studies, and Master of Science in Athletic Training. Additionally, Carver College of Medicine students can earn a Bachelor of Science degree in medical laboratory science, nuclear medicine technology, or radiation sciences.

COLLEGE OF NURSING

The University of Iowa College of Nursing has offered leading-edge nursing education since the turn of the 20th century and baccalaureate and master's degree programs for more than 50 years. A PhD program in nursing began in 1988, and a Doctor of Nursing Practice program was established in 2008. The college is an integral part of the health sciences campus, contributing to teaching, research, and patient-care resources that have earned international recognition.

With renowned faculty, advanced clinical experiences, and a tradition of innovative leadership, the University of Iowa College of Nursing is consistently ranked as one of the best nursing programs in the nation. Our graduates are sought after as highly skilled professionals who have received a rigorous education of the highest quality.

COLLEGE OF PUBLIC HEALTH

Public health is an interdisciplinary field made up of a wide range of professionals, including physicians, environmental scientists, health educators, biostatisticians, epidemiologists, health service administrators, pharmacists, social workers, nutritionists, and many others. What unites public health practitioners is the shared goal of preventing disease and injury and promoting healthy practices among entire populations.

The College of Public Health includes the Departments of Biostatistics, Community and Behavioral Health, Epidemiology, Health Management and Policy, and Occupational and Environmental Health. The college offers an undergraduate Bachelor of Arts in public health and a Bachelor of Science in public health. Four graduate degrees are offered: Master of Health Administration, Master of Public Health, Master of Science, and Doctor of Philosophy. Several public health combined-degree options are available with other UI colleges, including Business, Law, Liberal Arts and Sciences, Medicine, and Pharmacy, as well as the College of Veterinary Medicine at Iowa State University. An interdisciplinary program in human toxicology also is available.

There are opportunities for distance learning and certificate programs in public health. The Undergrad to Grad Program allows incoming undergraduates to earn both a bachelor's degree and a master's degree in five years. More than 23 research centers and institutes based in the college provide focused research on critical public health topics and deliver outreach and service activities in every Iowa county and beyond. Over 600 degree-seeking students are enrolled in the College of Public Health. The college is accredited by the Council on Education for Public Health.

UNIVERSITY COLLEGE

University College, created in 2005, is the academic home for a number of courses and degree programs that span the university.

The college provides educational opportunities for students that are both credit- and noncredit-awarding through the continuing work of service units: Distance and Online Education, the Center for Conferences, and the Summer Writing Festival. Many other nonacademic departments from across campus also offer coursework through University College.

Two undergraduate degrees, the Bachelor of Applied Studies (BAS) and the Bachelor of Liberal Studies (BLS), are offered through University College. Both degrees, which may be completed entirely online or through a combination of on-campus and online coursework, are interdisciplinary programs that draw on courses from other undergraduate colleges, providing a flexible pathway to an undergraduate degree. A number of undergraduate certificate programs are also offered through University College and can be added to either degree program.

Student success is an important mission of University College and is supported in numerous programs within the college, including Academic Support and Retention, Orientation Services, On Iowa!, Success at Iowa, First-Year Seminars, Excelling@Iowa, Supplemental Instruction, Tutor Iowa, and Early Intervention. These programs contribute to a student's personal measure of collegiate success, both academically and in providing an enriching undergraduate experience.
